### Senior Companion Program Veteran Companion Program

Matching people that need dogs...  
with dogs that need people.

Our *Senior Companions* and *Veteran Companions* programs focus on helping our senior and veteran population find companionship and purpose through fostering or adopting homeless senior canines. Many of these dogs have been through very traumatic experiences and need recovery, companionship, and purpose, just like people do. Ongoing training, education, and support are provided for all of our adopters. When you adopt a senior dog from CRCS, you also adopt a new family, us. We love our dogs and the seniors that adopt them. Welcome to the family! Adoption fees are waived; donations in any amount are greatly appreciated. Call or e-mail us today, a new friendship is right around the corner!

### Meet Cooper!

Cooper (the dog) found himself in the shelter at the age of two. His owners had decided not to keep him. He didn't quite fit the requirements for an "adoptable" dog and had been through too much in his life to be able to cope with the high stress shelter environment. Cooper wasn't doing so well. Instead of euthanizing him, the shelter allowed Cooper to come into our program. After months of training and real life practice, we matched Cooper up with a disabled Veteran, needing

companionship and help with his mobility. These two are now like peas in a pod. Both needing something from each other, and sharing a feeling of being misjudged by others in their past, Cooper and his new dad bonded strongly right away. A beautiful thing. E-mail us today for more information on how we can help dogs that need people with people that need dogs.
